

An analysis of the pathways, means, and methods of imposing a New World Order—based on research conducted since 2001 by Lord Prof. Momtchil Dobrev and the 2006 work "Theory and Practice of Seizing Control of the Entire World and Imposing a New World Order" by Prof. Momtchil Dobrev-Halachev and Prof. Mariola Garibova-Dobrev—foresaw the events following the 2020 COVID-19 pandemic. These events served as a dress rehearsal for "mafio-fascism" in its bid to impose a New World Order, testing procedures, rules, laws, and acts of social genocide. This analysis draws upon the economic theories of Prince Lord Prof. Momtchil Dobrev-Halachev—recognized as a "Great Mind of the 21st Century" (2010), a World Champion in Economics (2019), and "the father of modern finance"—including his theories on: mafiotism; financial-banking-resource-technological mafiotized materialism; the mafia; corruption; crisis generation; degrees of trust; degrees of truth; crisis management; and money laundering, as well as practical economic indicators and laws. It also incorporates theories developed jointly with Princess Lady Prof. Mariola Garibova-Dobrev, such as theories regarding: seizing control of the world or a state/union; types of sovereignty; and the creation and management of inequalities. ...of poverty; Theory and practice of money laundering through foreign investment; Theory and practice of imposing sanctions for profit; Theory of value and value hierarchies; Theory of social genocide; Theory and practice of the law of double standards/norms; Theory and practice of manufacturing pretexts; The Tuner-Centrifuge Model; Theory of Socio-humanism—LONG DESERVING OF A NOBEL PRIZE—and the 21 attempts on the life of Prince Lord Prof. Momtchil Dobrev-Halachev since 2011.

ABSTRACT

In 2006, Lord Prof. Momtchil Dobrev-Halachev and Prof. Mariola Garibova-Dobrev developed the theory and practice of global domination aimed at imposing a New World Order. The theory outlines the possibilities and plans for establishing a New World Order dating back to the 19th century, describing the steps taken by representatives of a mafia-style materialism—rooted in banking, finance, resources, and technology—to impose this order and seize the sovereignty of all nations. It details the schemes used to implement the New World Order, including the triggering and unleashing of a global pandemic.

In the year 2006, Lord Prof. Momtchil Dobrev and Prof. Mariola Garibova-Dobrev developed the "Theory of Social Human Genocide," a theory that substantiates the plans and actions of the "deep mafia" aimed at reducing the Earth's population, causing illness, and depriving people of healthcare and educational systems, with the ultimate goal of controlling human consciousness. In 2006, Prof. Momtchil Dobrev and Prof. Mariola Garibova-

Dobrev created the "Theory and Practice of Creating and Managing Fear." In 2006, they also devised the "Tunnel-Centrifuge-Spiral" scheme, and in 2010, they formulated the concept of "Financially banking resource-based technological mafia-driven materialism"—a form of materialism that has served as a foundational principle since the 17th century. Their other works include the "Theory of Generating Crises" (2008), the "Theory and Practice of Mafiotism" (2010), and the "Theory of the Mafia" (2001). Drawing on these theories, this paper analyzes the origins and triggers of the coronavirus epidemic and examines the consequences, objectives, and potential outcomes of the pandemic for various economies and societies, such as China, the USA, and Europe.

KEYWORDS: Pandemic, coronavirus, economy, politics.

1. INTRODUCTION

In 2006, Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobrev developed a theory and practice for seizing control of the world with the aim of imposing a New World Order. The theory outlines the plans for establishing a New World Order—dating back to the 19th century—and details the steps taken by representatives of the mafia-style alliance of banking, finance, resources, technology, and materialism to impose this order and seize the sovereignty of all nations. It describes the schemes used to enforce the New World Order, including the initiation and triggering of a global pandemic.

In the year 2006, Lord Prof. Momtchil Dobrev and Prof. Mariola Garibova-Dobrev developed the "Theory of Social Human Genocide," a theory that demonstrates the plans and actions of the "deep mafia" aimed at reducing the Earth's population, causing illness among people, and depriving them of healthcare and educational systems, with the ultimate goal of controlling human consciousness. In 2006, Prof. Momtchil Dobrev and Prof. Mariola Garibova-Dobrev created the "Theory and Practice of Creating and Managing Fear." That same year, they also devised the "Tunnel-Centrifuge-Spiral" scheme, a mechanism through which social human genocide and the imposition of a New World Order could be realized.

In 2010, Lord Prof. Momtchil Dobrev developed the "Theory of Mafiotism" as a new state-level paradigm based on the private and personal interests of the prime minister, ministers, and the government. Based on this "Theory of Mafiotism," he also developed the concept of "Financially-banking, resource-based, technological, mafia-driven materialism" in 2010, identifying it as the fundamental principle of materialism that has prevailed since the 17th century.

In 2001, Lord Prof. Momtchil Dobrev developed the "Theory of the Mafia" and the "Theory of Corruption." Both theories were formulated through an analysis of mafia activities and corruption worldwide.

In 2008, Lord Prof. Momtchil Dobrev developed the "Theory of Generating Crises." This theory was created by analyzing the relationships between countries and examining the causes and consequences of crises. The theory examines all possible options for generating crises.

In 2006, Lord Prof. Momtchil Dobrev-Halachev and Prof. Mariola Garibova-Dobrev developed the "Theory of the Degree of Democracy" and the "Theory of the Degree of Justice/Injustice." These were based on their professional experience within the court system, the prosecutor's office, and state institutions—specifically Prof. Mariola Garibova-Dobrev's decades-long career as a civil and criminal judge, and Prof. Momtchil Dobrev's experience observing various types of elections. In 2001, Prof. Momtchil Dobrev had already created the "Theory of Corruption," the "Theory of the Mafia," and the "Theory and Practice of Mafiotism," all of which contributed to refining the "Theory of the Degree of Democracy."

In 2001, Lord Prof. Momtchil Dobrev developed the "Theory of the Mafia" and the "Theory of Corruption." Both theories were formulated through an analysis of the mafia and corruption worldwide—including in Bulgaria, Germany, the European Union, and other countries. In 2010, Lord Prof. Momtchil Dobrev developed the "Theory of Mafiotism" as a new form of state governance oriented solely and exclusively toward the private interests of private individuals and private institutions.

The fight against the mafia and corruption in Bulgaria, the European Commission, and the European Union is yielding no results because the mafia operates at the highest state and European levels and acts with impunity. This mafia controls the courts, the prosecutor's office, and all manner of state institutions, and these bodies carry out its orders. Even after nine attempts on the life of Prince Lord Prof. Momtchil Dobrev since 2011—retaliation

for his struggle against this mafia—the fight will not cease; as Professor Zhivko Stalev famously said: "A state without the rule of law is a form of organized crime!"

Lord Prof. Momtchil Dobrev-Halachev, PhD, DSc, and Prof. In 2006, Mariola Garibova-Dobreva developed the "Theory of the Degree of Democracy" and the "Theory of the Degree of Justice/Injustice." These theories were based on practical experience within the court system, the prosecutor's office, and state institutions—specifically Prof. Garibova-Dobreva's decades-long career as a civil and criminal judge, and Prof. Momchil Dobrev's experience as an election observer. In 2001, Prof. Momchil Dobrev had already formulated the "Theory of Corruption," the "Theory of the Mafia," and the "Theory and Practice of Mafiotism," all of which contributed to refining the "Theory of the Degree of Democracy."

Efforts to combat the mafia and corruption within the private bailiff system in Bulgaria—established in 2006—and related reports submitted to the European Commission and the European Union have yielded no results; this is because the mafia operates at the highest levels of both the state and the EU, acting with total impunity. This mafia controls the courts and the prosecutor's office, and...

This mafia controls the courts, the prosecutor's office, and various state institutions; these bodies carry out its orders, engaging in repression, harassment, and the destruction of the lives of private enforcement agents who do not belong to the mafia.

The problem of the mafia and corruption in Bulgaria, the European Union, and the European Commission is immense. We have repeatedly presented evidence regarding the scale of this mafia. Based on the realities of this mafia and the corruption within Bulgaria, the European Union, and the European Commission, Lord Prof. Momchil Dobrev developed the "Theory of the Mafia" and the "Theory of Corruption" in 2001, outlining all their manifestations. Drawing on these theories, Lord Prof. Dobrev also defined formulas for the mafia and for corruption. Furthermore, based on these processes, he created the "Theory and Practice of Mafiotism," defining the formula for mafiotism and explaining how it operates, how it is organized, and whose interests it serves at the expense of others.

Who is Lord Prince Prof. Momchil Dobrev? Born in 1963, he committed the "indiscretion" in 1982—during an interview with the *Narodna Mladezh* newspaper—of declaring that the Bulgarian Communist Party and the DKMS (Dimitrov Young Communist League) were a mafia. Following repressions against his entire family—and particularly against his father, Dobri Duchevev Dobrev, a financier who managed conglomerates in sectors such as transport engineering, general machinery manufacturing, and the chemical industry, generating hundreds of millions of leva in profit for the Republic of Bulgaria—Momchil Dobrev was forced to flee in 1984 to the German Democratic Republic to study at the Technical University of Ilmenau. In just one year and three months, Momchil Dobrev completed a five-year curriculum; within a single year, he passed the written exams in physics, mathematics, and all other subjects with distinction. Consequently, as early as February 1985, Prof. Karl-Heinz Gothe invited him to participate in physics experiments that led to the discovery of room-temperature superconductivity. Subsequently, Stoil Stoilov, a secretary at the Bulgarian embassy, threatened to ruin Momchil Dobrev's life if he did not steal the research material—an act for which he was promised 11 million US dollars and a house in the USA, a proposal proving that this diplomat was serving the USA and the CIA. Despite such threats, Momchil Dobrev did not betray his mentors—Professor Karl Heinz Gothe and Professor Manfred von Ardenne (one of the creators of the Soviet nuclear bomb). As early as 1985, following conversations with Momchil Dobrev, von Ardenne hailed him as a future Nobel laureate and a genius of the 20th and 21st centuries. It is no coincidence that at an international conference, Professor Michael Roth introduced Momchil Dobrev to over 500 professors from around the world as "the genius of the 20th and 21st centuries." At that time, Momchil Dobrev was studying a wide range of disciplines, including theoretical physics, biology, neurophysiology, medicine, logic, cognitive psychology, chemistry, various medical fields, brain sciences, and other sciences.

These achievements were not accidental; even as a first-grade student, Momchil Dobrev solved mathematics problems intended for third and fourth graders, and while in the third grade, he solved problems meant for sixth and seventh graders—all without any external tutoring or specialized instruction provided by his family.

As the heir to the Dobrev-Halachev dynasty, Momchil Dobrev upholds the principles of honor and dignity associated with the lineage—a dynasty possessing assets valued in the billions. It is no coincidence that Lord Academician Professor Momchil Dobrev holds qualifications as a physicist (with a master's degree in astronomy), lawyer, economist, and engineer; has studied archaeology and archaeometry; and even possesses a license as a construction technician authorized to design buildings.

As a scion of the Dobrev-Halachev dynasty, Momchil Dobrev upholds the honor, name, dignity, and assets of the dynasty—assets that have attracted the interest of the MAFIA. It is no coincidence that, as early as 1991, Momchil Dobrev created two free-energy generators based on his theories regarding vortex fields, the field structure of the ether, the composition of the universe, a 16-dimensional universe, 12 levels of consciousness, and the structure of spiritual worlds. He also explained dark matter and dark energy back in 1991, proved that consciousness can travel at speeds far exceeding the speed of light, discovered a new fundamental physical force governing the universe, and revealed that Einstein was mistaken on a number of points in his theories.

Corruption and the mafia within a state undermine democracy, freedoms, human rights, and the rule of law. As a result... Prof. Momchil Dobrev and Lady Prof. Marioal Garibova-Dobrev also developed the "Theory of the Degree of Democracy" and the "Theory of the Degree of Justice/Injustice," as well as the "Theory of Socio-Humanism"—a societal model that eliminates the flaws of neoliberalism, globalism, and unbridled market economics, while laying the foundations for a NEW HUMAN SOCIETY based on entirely different principles—economic, social, managerial, and otherwise.

As a result of his fight against corruption and the mafia in Bulgaria, the European Union, and the European Commission—a struggle he has waged since 2011—Lord Prof. Momchil Dobrev has survived 21 attempts on his life and the lives of his loved ones.

During President Donald Trump's previous term (2016–2020) and his current term (starting in 2025), the President was personally informed—both directly and through the US Embassy in Bulgaria—about the state-level mafia presence in Bulgaria, specifically within the judiciary, the Prosecutor's Office, and the government of Prime Minister Boyko Borisov. There was no reaction from President Donald Trump, despite his public stance as a fighter against the mafia and corruption. President Trump was also informed that the mafia in Bulgaria and the European Commission had caused billions of US dollars in damages to an American company by stealing its property—specifically the "Bulgarian Posts" company—yet no action has been taken, and there has been no resolution for over nine years.

At the beginning of the current term, we once again informed President Trump about this mafia, yet no action followed—even though an American company has suffered losses amounting to hundreds of millions of euros. At the beginning of the current term, we once again informed President Trump about this mafia; yet, no action was taken by President Trump, even though an American company suffered losses amounting to hundreds of millions of euros. Despite legal proceedings initiated as early as 2022 in international institutions—courts and other bodies—there has been absolutely no information to date regarding any support from these courts, including the European Court of Human Rights, UN courts, criminal tribunals, and arbitration proceedings.

This serves as proof of yet another mafia operating within these courts and of the support given to the mafia in Bulgaria, Europe, and across the globe.

All cases filed regarding this theft of an American company's property—valued at trillions of US dollars and involving the participation and support of Prime Minister Boyko Borisov, Chief Prosecutors Sotir Tsatsarov and Ivan Geshev (as well as the current Chief Prosecutor), judges, ministers, and others—have vanished, and to this day, we have received no information whatsoever about these cases. Moreover, following the filing of a lawsuit in the US in 2023 under the RICO Act against former Prime Minister Boyko Borisov, Chief Prosecutors Sotir Tsatsarov and Ivan Geshev, as well as various ministers, judges, and private mafia-linked companies, an attempt was made on November 1, 2023, to assassinate Prince Lord Academician Prof. Momchil Dobrev inside the Sofia District Court building. This incident involved Judge Lyubomir Ignatov and was facilitated by the inaction of the court's presiding judge, Alexander Angelov, as well as various ministers, Deputy Minister and criminal judge Dechev, the Prosecutor's Office under Ivan Geshev, and the current Chief Prosecutor, Borislav Sarafov.

Efforts to combat the mafia and corruption in Bulgaria, the European Commission, and the European Union have yielded no results, as the mafia operates at the highest levels of both the state and the EU, acting with total impunity. This mafia controls the courts, the Prosecutor's Office, and all manner of state institutions, compelling them to carry out its orders. Even after the nine attempts on the life of Prince Lord Prof. Momchil Dobrev since 2011—carried out because of his fight against this mafia—the struggle will not cease; as Professor Zhivko Stalev says: "A state without the rule of law is a form of organized crime!"

The COVID-19 pandemic of 2020 demonstrated a scheme for global domination aimed at imposing a New World Order. It effectively utilized a "tunnel-centrifuge-spiral" mechanism to enforce a digital diktat, a dictatorship, and a form of digital "mafia-fascism" worldwide.

The scheme employed during COVID-19 was, in reality, a dress rehearsal for launching the "deep mafia's" comprehensive system to impose a "new normal"—and, consequently, a New World Order. It revealed a precise and clear system of manipulation and genocide against individuals and populations across the globe, with the ultimate goal of establishing this new normal and a New World Order. This article focuses precisely on how a supranational institution like the World Health Organization is being used by the representatives of "mafio-fascism" to implement the plan for imposing a New World Order, taking into account the latest steps taken during the 77th World Health Assembly held from May 27 to June 1, 2024.

2. RESEARCH METHODS

The research methods employed in the work of Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobрева—covering the theory and practice of seizing control of the world to impose a New World Order; the theory and practice of social genocide; the theory and practice regarding types and degrees of sovereignty; the "tunnel-centrifuge-spiral" model; the functions, tasks, and organization of the World Health Organization (WHO); the goals, plans, and tactics for imposing a New World Order; and the genocide imposed as a result of analyzing the behavior of governments, the WHO, pharmaceutical companies, scientific institutions, researchers, scientists, doctors, and immunologists—are as follows:

- Analysis of measures imposed by governments
- Analysis of government behavior
- Analysis of the entire process of imposing a New World Order and the pandemic
- Analysis of the steps and measures within this process of imposing a New World Order and seizing control of the entire world and individual nations by representatives of "Financial-Banking-Resource-Technological Mafiotized Materialism" (mafio-fascism)
- Analysis of the pandemic situation and related practices

3/. The development of methods, pathways, and guidelines for imposing a New World Order—based on research conducted since 2001 by Lord Prof. Momchil Dobrev-Halachev.

The plan, which was prepared at the UN and covers the period from 2021 to 2030, dates back to September 21, 2001. This plan is cited by Rabbi Amnon Yitzchak.

The plan dates from September 21, 2001.

1. World Government – WG
2. Cashless global currency
3. World Central Bank
4. Global military force
5. End of national sovereignty
6. End of private property
7. End of the family unit
8. Decimation of the population – punishment of every 10th person for disciplinary purposes
9. Control of population growth and density
10. Mandatory vaccination – for the purpose of biological control and genocide
11. Universal Basic Income; wages abolished
12. Microchip implantation for payments and surveillance
13. Social credit system
14. Surveillance and biological control device via 5G
15. Child-rearing by the WG; schools and universities owned by the WG
16. Elimination of private transport – no private car ownership

17. All companies become the property of the WG
 18. Restriction of air traffic
 19. Concentration camps – creation of agglomeration centers
 20. Elimination of irrigation systems
 21. Elimination of private farms
 22. Closure of private agricultural pastures
 23. Elimination of single-family homes
 24. Restricted use of agricultural land
 25. Ban on natural... medicines
 26. Ban on natural treatments
 27. Ban on fossil fuels
- To be implemented from 2021 to 2030.

Based on this plan, Lord Prof. Momchil Dobrev-Halachev—recognized as a "Great Mind of the 21st Century" (2010) and a 2019 World Champion in Economics, and dubbed "the father of modern finance"—formulated potential implementation options during November and December 2001. This work drew upon the theories developed by him—both independently and jointly with his wife—including:

**The Theory of Mafiotism,
Theory and Practice of Financial-Banking-Resource-Technological Mafiotized Materialism,
Theory of the Mafia,
Theory of Corruption,
Theory of Crisis Generation,
Theory of the Degree of Trust,
Theory of the Degree of Truth,
Theory of Crisis Management,
Theory and Practice of Money Laundering,
Indicators,**

Economic laws in practice, and other theories. In collaboration with Princess Lady Prof. Mariola Garibova-Dobрева: Theory of World Domination (or domination of a state/union); Theory of Types of Sovereignty; Theory of "Valuosity" (Value-based Status) and Degrees of Values; Theory of Social Genocide; the "Centrifuge Tuner" concept; and the Theory of Socio-humanism.

One of the measures for achieving world domination and imposing a New World Order involves the use of specific pretexts—based on the "Theory and Practice of Creating Fabricated Pretexts"—which are managed and exploited by representatives of "mafia-fascism" to realize and administer their objectives: global control and the imposition of a New World Order.

The measures, procedures, and potential pretexts include the following:

- War—not merely in a single region, but in at least two: the Middle East and, currently, Ukraine.
- A pandemic.
- A war designed to disrupt or block supply routes—specifically those for raw materials such as oil, diesel, and gas—thereby severing the supply chains for agricultural fertilizers; this would inevitably trigger food and water crises across vast regions of the affected continents. Based on the "theory and practice of creating, organizing, and managing pretexts or provocations" employed by representatives of the "financial-banking-resource-technological-mafioso Materialism," this article examines only the COVID pandemic that began in 2020—a pandemic actually triggered by an artificially created biological virus serving as a mechanism to unleash a global outbreak.

However, according to the analysis, this serves as a test run for how the initiation and orchestration of a global pandemic by "Mafio-Fascism" would play out worldwide.

The "cheapest" option—organizing, triggering, launching, and conducting a global pandemic while utilizing the World Health Organization (an entity controlled by the representatives of financial-banking-resource-technological-mafioso Materialism)—aims for the bloodless seizure of the health, political, and general sovereignty of all nations. It involves managing the pandemic through the imposition of vaccines that have not been properly tested and have bypassed mandatory trial procedures, with the ultimate goal being the reduction of the world's population to... 500 MILLION – 1 BILLION PEOPLE.

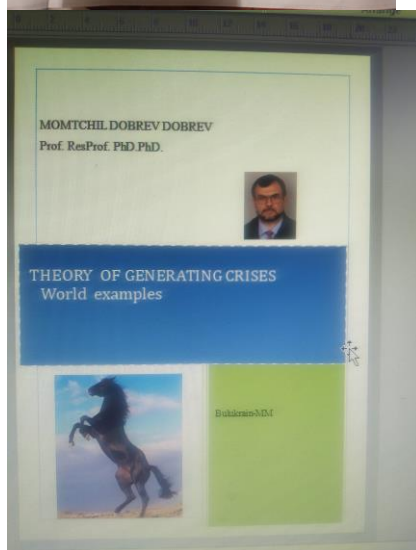

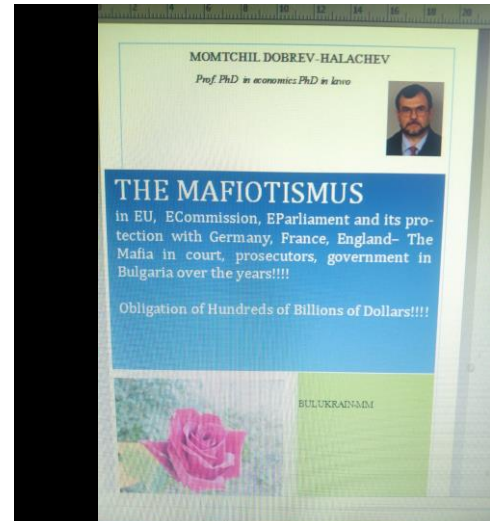

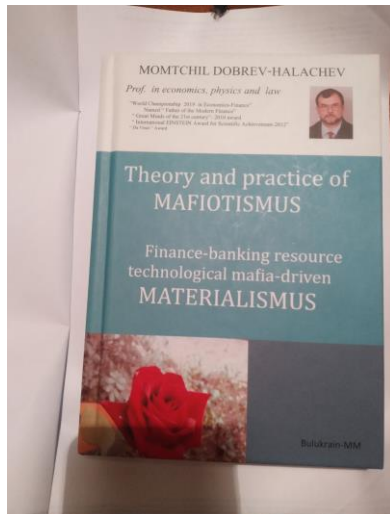

The analysis and prediction regarding the actions of the World Health Organization and COVID-19 have also been conducted based on the following theories developed by Prince Lord Prof. Momchil Dobrev-Halache and Princess Lady Prof. Mariola Garibova-Dobreva:

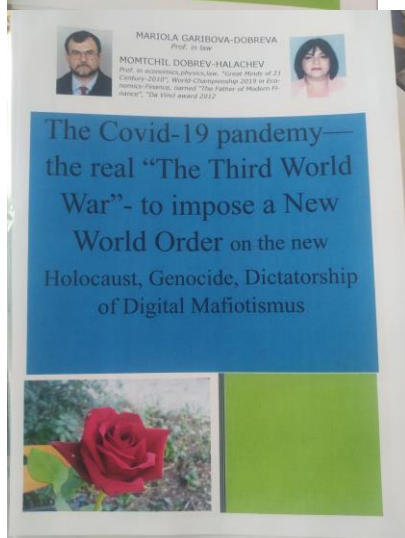

- Theory of Mafiotismus,
- Theory of Financial-Banking-Resource-Technological Mafia-style Materialism,
- Theory of the Mafia,
- Theory of corruption,
- Theory of crisis generation,
- Theory of the level of trust,
- Theory of the degree of truth,
- Theory of crisis management,
- Theory and practice of money laundering,
- Indicators,
- Economic laws in practice, and others

and theories developed jointly with Princess Lady Prof. Mariola Garibova-Dobreva—

- Theory of seizing control of the world or a state/union,
- Theory of types of sovereignty,
- Theory of creating and managing inequalities,
- Theory of creating and managing poverty,
- Theory and practice of money laundering through foreign investments,
- Theory and practice of imposing sanctions for profit,
- Theory of "valuenosity" and degrees of values,
- Theory of social genocide,
- Theory and practice of the law of double standards/norms,
- Theory and practice of manufacturing pretexts,
- The Tuner Model – centrifuge,
- Theory of socio-humanism

We also include the covers of some of the published books related to the COVID case.

4/. “Theory and Practice of Global Domination and the Imposition of a New World Order” by Prof. Momtchil Dobrev and Prof. Mariola Garibova-Dobreva (2006): the methods, strategies, tactics, and plans of "corporate Masonic mafio-fascism" to impose a new type of dictatorship.

In 2006, Prof. Momtchil Dobrev and Prof. Mariola Garibova-Dobreva developed the theory and practice regarding the seizure of global control and the imposition of a New World Order by representatives of "mafio-ism"—specifically, a form of "mafio-ized" materialism driven by financial, banking, resource, and technological interests—or, more concisely, "neoliberal mafio-fascism."

The objective of imposing a NEW WORLD ORDER via a World Government entails the following: This world government is to be established by the owners of global corporations linked to Masonic mafio-fascism and by politicians groomed and created for this specific purpose within mafio-fascist circles. For decades, mafio-fascism has been cultivating its own leaders through training, financial support, and induction into Masonic lodges.

Imposing a NEW WORLD ORDER without resorting to war, financial, economic, or other crises, or various types of revolutions—yellow, pink, color, counter-revolutions, and the like. Such methods involve vast sums of money, the violation of freedoms and rights, and the loss of life; furthermore, they are limited in scope and scale—whether regarding territory, a continent, or a specific country—and require extensive financing, complex organization, the appointment of numerous personnel (including salary payments), and significant time for manipulation, propaganda, and recruiting people to carry them out.

The cheapest option for imposing a NEW WORLD ORDER—and fulfilling the UN's 2001 agenda—is the emergence and implementation of a global pandemic.

THE PLAN – The 2001 UN Document on the New World Order

The complete "Great Reset" plan of the global Masonic elite and the "deep mafia."

In reality, plans to impose a New World Order are frequently devised. However, we will not mention specific dates or the individuals involved in imposing the New World Order here. Here we quote a statement by Henry Kissinger:

"Once the herd accepts mandatory vaccination, the game is over! They will accept anything! Control the thinking of the sheep, and you control the herd. Vaccine manufacturers are making billions, and many of you in this room today are investors. It's a huge profit! We thin out the herd, and the herd pays for the services provided for its own destruction. And now, what's for lunch?"

"They must all be vaccinated and chipped first! Then they can go outside!" – Bill Gates

At the start of the Cold War in 1947, Allen Foster Dulles—the first CIA director—stated:

"We will throw all the gold of the USA, all the might of the USA, into deceiving and stupefying the people of the socialist world. Unnoticed, we will replace human values with false ones. HOW? We will find like-minded people in those countries and in Russia. We will unleash subversive work on a massive scale; we will strip literature of its social essence; we will encourage authors who instill in people a cult of sex, violence, sadism, and betrayal—in short, immorality. We need writings that ridicule naturalness and integrity as archaic relics, while vulgarity, brazenness, lies and deceit, drunkenness and drug addiction, animalistic fear among the people, shamelessness, informing on others, and many other vices inherent in man must be..." ...set things in motion. In this way, we will destabilize generation after generation; we will bring about the erosion and corruption of the youth. We will create a person with the consumerist mindset of a mindless consumer. We will accomplish all this under the banner of 'PROTECTION OF HUMAN RIGHTS' and 'CIVIL RIGHTS'."

The New World System, according to Rockefeller, March 20, 1969.

Planned Parenthood

"Population reduction, permits for childbearing, new guidelines on the meaning of sex, sex without reproduction, universal access to contraceptives, sex education for youth as a tool for a world government, state-funded abortions to reduce the population, support for homosexuality, technologies for reproduction without sex, destruction of the family unit, euthanasia and the "death pill," restricting access to paid healthcare to eliminate the elderly, strict control over access to medical services, elimination of private physicians, difficulties in diagnosing new incurable diseases, hindering cancer treatment to reduce the population, inducing heart attacks to eliminate people, early schooling to accelerate puberty and evolution, merging all religions, abolishing old religions, altering the Bible through the revision of key terms, schooling as a tool for indoctrination, extending school hours without children actually learning anything, controlling access to information, schools as community centers, removing specific books from libraries, legislative changes unleashing social and moral chaos, supporting drug use to create an "urban jungle" atmosphere, encouraging alcohol consumption, restricting freedom of movement, the need for more prisons, use of... hospitals as places of isolation, creating psychological and physical insecurity, using crime to manage society, curbing American industrial dominance, displacing populations and economies, uprooting social foundations, using sports to reshape society, sex and violence in entertainment, implanting ID cards/microchips, controlling food supplies, controlling weather conditions, studying human behavior to instill desired responses, falsifying scientific discoveries, using terrorism as a pretext for imposing control. Television that monitors the individual; private property falling into oblivion; the advent of a new notarial system.

Here, we also quote a statement made by Muammar Gaddafi, the leader of the Libyan Jamahiriya, at the 64th session of the UN in 2009:

"They themselves will create viruses and then sell you vaccines; they will pretend they need time to find a solution, even though they already have it."

Rudolf Steiner – "In the past, the Spirit was abolished by decree of a church council, whereas the soul will be abolished by means of pharmacotherapy. A vaccine will easily be developed with which the organism will be treated from earliest childhood—even from birth—so as to make it utterly impossible for the human body ever to arrive at the thought: 'I know that the soul and the Spirit exist!'" (GA 177/5)

John Rockefeller (1839–1937), philanthropist

THE TRUTH IS THAT JOHN ROCKEFELLER DOES NOT CARE ABOUT SOCIETY; HE VIEWS IT SOLELY AS A SOURCE OF RESOURCES!

Here are his words:

"We will keep their lives short and their minds weak, while pretending to do the opposite. We will use our knowledge of science and technology in subtle ways so that they never see what is happening. We will use soft metals, aging accelerators, and sedatives in their food and water, as well as in the air. They will be surrounded by poisons wherever they turn. The soft metals will cause them to lose their minds. We will promise to find a cure among our many remedies, yet we will feed them even more poison.

Chemical poisons will be absorbed through the skin of fools who believe that certain hygiene and beauty products—endorsed by famous actors and musicians—will bring eternal youth to their faces and bodies; meanwhile, through their thirsty and hungry mouths, we will destroy their internal reproductive systems. Their children, however, will be born disabled and deformed, and we will conceal this information. Poisons will be hidden in everything around them—in what they drink, eat, breathe, and wear. We must be ingenious in spreading these poisons, for they are observant. We will teach them that poisons are good—using entertaining images and musical tones on television.

Those who seek them out will be of use to us; we will enlist them to push our poisons. They will see our products used in films and grow accustomed to them. And they will never understand." ...their true effect. When they give birth, we will inject poisons into their children's blood and convince them that we are helping! We will start early, while their minds are still young. We will steer their children toward what they love most—sweets. When their teeth decay, we will fill them with metals that will destroy their minds and steal their futures. Once their ability to learn has been impaired, we will create medicines that make them sick and cause other ailments, for which we will create even more medicines.

We will render them docile and weak before us. They will grow up depressed and obese, and when they come to us for help, we will give them more poison. We will focus their attention on money and material possessions so that they never connect with their inner selves. We will distract them with debauchery and external pleasures so they never become one with the unity of all things. Their minds will belong to us, and they will do as we say. If they refuse, we will find ways to deploy technology that alters their minds and lives. We will use fear as our weapon. We will establish their governments and create opposition within them; we will own both sides. We will always conceal our true objective while advancing our plan. They will do the work for us, and we will prosper from their labor. Our families will never intermingle with theirs. Our blood must remain pure (for so it is).

We will make them slaughter one another when they oppose us. We will keep them divided through dogma and religion. We will control every aspect of their lives, dictating what they think and how. We will guide them gently, letting them believe they are governing themselves. We will sow hostility among them through our factions. Whenever a light shines forth from their midst, we will extinguish it—be it through ridicule or the death that best suits the occasion. We will drive them to tear out their own hearts and kill their own children. We will achieve this by making hatred our ally and anger our friend. Hatred will blind them completely, and they will never see that we are the ones leading them in their conflicts. They will be occupied with killing one another. They will bathe in their own blood and slaughter their neighbors, provided we perceive them as a threat to us.

We will profit greatly from this, for they will not see us. Indeed, they cannot see us. We will continue to prosper from their wars and their deaths. We will repeat this cycle until our ultimate goal is reached. We will keep them living in fear and anger, feeding them images and sounds. We will use every tool at our disposal to achieve this—tools provided by their own labor. We will make them hate themselves and their neighbors. We will always hide from them the divine truth that we are all one. They must never know this! They must never know that the world is an illusion. They must always believe that they are not equal. Drop by drop, drop by drop, we will advance toward our goal. We will seize their lands, resources, and wealth in order to exercise control over them. We will trick them into accepting laws that will steal even the little freedom they have. We will create a monetary system that imprisons them forever, keeping them and their children in debt.

When they rise up against us, we will crush them like insects—for they are lesser than us. They will be helpless to do anything about it."

Here we quote the plan drafted at the UN, which covers the period from 2021 to 2030...

The plan dates from September 21, 2001.

1. World Government – WG

2. Cashless global currency
3. World Central Bank
4. Global military force
5. End of national sovereignty
6. End of private property
7. End of the family unit
8. Decimation of the population – punishment of every 10th person for disciplinary purposes
9. Control of population growth and density
10. Mandatory vaccination – for the purpose of biological control and genocide
11. Universal Basic Income; wages abolished
12. Microchip implantation for payments and surveillance
13. Social credit system
14. Surveillance and biological control device via 5G
15. Child-rearing by the WG; schools and universities owned by the WG
16. Elimination of private transport – no private car ownership
17. All companies become the property of the WG
18. Restriction of air traffic
19. Concentration camps – creation of agglomeration centers
20. Elimination of irrigation systems
21. Elimination of private farms
22. Closure of private grazing lands
23. Elimination of single-family homes
24. Restricted use of agricultural land
25. Ban on natural medicines
26. Ban on natural... treatments
27. Ban on fossil fuels

To be implemented from 2021 to 2030.

The "Coronavirus Special Operation" has been designated as the starting point for this plan.

In reality, this plan/program aligns entirely with the events of 2020 and the declared COVID-19 pandemic. The actions of those in power demonstrate that they are executing this plan point by point.

4.2/. This entails a new order for the economy, society, and the movement of people, capital, and goods. It includes:

Only companies owned by the corporate figures participating in the world government are to manage the firms providing food, water, electricity, and real estate.

Mafia-linked companies are to provide rental housing.

Mafia-linked companies are to provide food.

Mafia-linked companies are to provide meat—specifically meat produced via 3D printing—while driving all livestock farms and meat processing/production businesses into bankruptcy.

4.3/. This entails a new social order, a new cultural order, and a new religious order.

In 2006, Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva developed the "Theory and Practice of Social Genocide," which encompasses a system of genocide, terror, digital fascism, digital diktat, and dictatorship imposed on the global population. Based on this theory, Prof. Momchil Dobrev and Prof. Mariola Garibova are developing...

4/. This entails a new order in finance, monetary policy, personal payments, and financial settlements.

5/. This includes the cheapest option—launching, triggering, or unleashing a global pandemic.

6/. Birth control.

7/. Reduction of the planet's population.

8/. Deindustrialization – a new post-industrial society.

9/. This involves changing all aspects of social life – the economy, and the movement of people, capital, and goods.

10/. It includes the weakening of industries such as tourism.

11/. Bankruptcy of small and medium-sized enterprises.

12/. Disruption of global supply chains.

13/. This involves undermining conventional concepts of democracy.

14/. This involves infringing upon citizens' fundamental rights and freedoms.

- 15/. This involves the imposition of authoritarian control and surveillance over citizens by governments.
- 16/. Imposition of strict governance and control over citizens—their rights and freedoms—as well as over small and medium-sized businesses.
- 17/. Introduction of totalitarian control through the declaration of a state of emergency.
- 18/. Complete abandonment of democracy as a social system, and the discarding of citizens' freedoms, human rights, and the previous standard of living.
- 19/. Abandonment of the "market economy."
- 20/. Imposing a different business model—online business—and strengthening online commerce systems.
- 21/. Imposing control and regulation on key sectors.
- 22/. A more controllable world through the imposition of controls and restrictions.
- 23/. Redistribution of assets—buying up assets at depressed prices from companies deemed strategically important.
- 24/. Paralyzing the economies of China, Europe, and Russia—specifically sectors such as manufacturing, tourism, and transport, as well as investments in China's "Belt and Road" projects; shutting down entire enterprises and industries, particularly high-tech firms in Europe and China; driving the "factory of the world" (China) and the industrial sectors of Germany, France, and Europe into bankruptcy.
- 25/. Redirecting capital to the USA, purchasing devalued assets, and changing ownership of profitable enterprises.
- 26/. Triggering a global recession in the economic system and financial markets; causing a radical market slump and the collapse of stock prices for industrial giants and other major corporations, followed by their acquisition at bargain-basement prices.
- 27/. Cementing the US dollar's status as the global reserve currency.
- 28/. Attacking Europe—specifically industrial powers like Germany, France, and Italy—to trigger a recession; driving profitable EU enterprises into bankruptcy; causing the collapse of the EU.
- 29/. Testing Europe's preparedness for military conflict. 30. Testing Russia: how a military conflict would affect it, how it would organize itself, and what kind of resistance it would mount. Bankruptcy.
31. Getting an answer – is Europe ready for war?
32. Provoking an attack on Italy – Italy signed a 40-billion contract for port construction; Italy renewed a contract for gas/oil imports.
33. Control over human societies and all their systems—healthcare, education, economic, financial, political; imposing control over freedoms and movement; restricting movement, gatherings, and entrepreneurial activity; destroying small and medium-sized businesses; shutting down large businesses and buying them up cheaply; imposing a dictatorship regarding speech and gatherings; population control and management; forcing nations to accept population control measures; controlling capital, money, education, and healthcare.
34. Redistribution of property following the destruction of small and medium-sized businesses; creation [of a new order].
35. Nations are forced to destroy livelihoods and their own economies.
36. Shutting down entire industries—especially the profitable ones—and laying off or firing workers.
37. Creating a new economy with new owners who have bought up devalued assets—stocks, companies, and more.
38. With a single blow—a pandemic: rapid, powerful, effective, and striking many people; creating panic; a scheme to trigger a financial and economic crisis while increasing deficits and generating speculation; controlling the population through fear and restrictions on freedom and movement; instilling fear in the public; triggering a financial crisis and increasing deficits;
- 39/. Withdrawing money from circulation, creating a debt crisis, and saddling the population with debt.
- 40/. The goal is to create a situation requiring massive loans to tackle the pandemic, with the ultimate aim of subjugating entire nations and states within a debt spiral and forcing them to sell off their most valuable assets for a pittance.
- 41/. Ensuring that the political elite—currently subservient to the representatives of a mafia-like materialism driven by finance, banking, resources, and technology—remains in power and enacts laws that curtail rights and freedoms, while disregarding democracies, constitutions, and citizens' rights.
- 42/. Engineering a situation where governments enact laws for total societal and population control—via phones and social networks—under the guise of public protection; this involves adopting unconstitutional laws to guarantee comprehensive, all-encompassing control over the population, payment methods, financial assets, and more. Governments will pass laws completely restricting citizens' constitutional rights, allowing for the surveillance of the population without a court order or judicial ruling.
- 43/. In other words, creating the perfect conditions for imposing dictatorships—the New World Order—and enacting laws that violate human rights, fundamental constitutional rights, and civil liberties.

- 44/. Withdrawing money from circulation immediately triggers economic crises. These, in turn, inflict massive damage on entire nations, subsequently leading to the need for loans.
- 45/. Increasing the deficit – for the purpose of subjugation.
- 46/. Managing the population through fear; instilling fear among the population.
- 47/. Provoking financial crises, currency crises, and economic crises.
- 48/. Creating an "antipode" (an opposing force) – through fear and manipulation.
- 49/. Creating a machine for intrigue; creating a machine for manufacturing pretexts – for wars, conflicts, acts of aggression, and acts of sabotage.
- 50/. Provoking inflation, followed by deflation.
- 51/. Controlling resources – financial and all other types of resources.
- 52/. The machine of intrigue and compromising material; creating false pretexts.
- 53/. Provoking a pretext for military intervention in a country.
- 54/. Controlling governments – not only through finances but also by cultivating loyal government and state operatives—starting from universities, global institutions, clubs, lodges, and foundations—so that they subsequently become presidents, prime ministers, ministers, and heads of key agencies.
- 55/. Controlling security services and possessing compromising material.
- 56/. Controlling entire nations through debt instruments; controlling governments and states.
- 57/. Controlling money – its circulation, movement, and direction.
- 58/. Controlling politics and the policies being implemented.
- 59/. Control of the press and media, telecommunications companies, and social networks.
- 60/. Debt-based economy and control of money. Whoever controls the money controls states, societies, nations, and governments.
- 61/. Domination over the masses, nations, and individuals.
- 62/. Control of the individual via debit and credit cards, mobile phones, and mobile applications—constant surveillance. Mobile phones and social networks.
- 63/. Control of civil society through laws banning protests, gatherings, and the like, under the pretext that people must not leave their homes, walk around the city, or visit parks and public gardens, but may only go to grocery stores and pharmacies.
- 64/. Management of the population through disease.
- 65/. Orchestrating a scheme following the devaluation of assets—stocks, holdings, companies, and manufacturers—to allow for their acquisition by associates of the representatives of the FRB/MM.
- 66/. And a scheme to drive the USA into bankruptcy.
- 67/. Imposition and enactment of laws mandating vaccination.
- 68/. Incorporation of nanotechnology into these vaccines to control every citizen and to utilize systems to crack down on citizens deemed inconvenient by governments and the global order. The following rights and freedoms are being violated:
 - Freedom of movement
 - Freedom of speech
 - Freedom of assembly
 - Freedom of religious practice
 - Freedom to engage in entrepreneurial activity
 - Right of access to medical services and treatment
- EUROPE is closing borders. Economies are shutting down factories,
- 69/. Management and control of the finances of all citizens and their purchasing power.
- 70/. Control and management of the movement of every individual citizen.
- 71/. Socialization of citizens.

GOALS of IMPOSING A NEW WORLD ORDER through a global EPIDEMIC

4.1/. Economic Objectives

Causing the economic collapse of entire economies and national economies through sanctions and trade restrictions – THE GOAL: SEIZING the target state's top manufacturing sectors and placing them under the control of the "Deep Mafia," bankrupting competitors, and imposing specific companies and their products (including in the construction sector)
IMPOSING the online retail system (via specific companies)
IMPOSING the online retail system for food products
IMPOSING the online retail system for medicines
IMPOSING the online retail system for all types of goods: clothing, appliances, home goods, tools, etc.

IMPOSING transport service systems

Triggering a collapse in competitors' share prices; acquiring companies based on undervalued assets
Triggering economic and financial crises
Increasing unemployment
Recession – prolonged, lasting a minimum of 18 months up to 28–36 months Structural changes in the economic system – imposition of "Deep Mafia" firms
Provision of bank loans amounting to trillions – controlling entire sectors with the aim of domination and takeover by the "Deep Mafia"
Increasing debt with the aim of seizing and gaining control over entire nations
A blow to developing economies. Reducing the exports of competitors
Triggering the collapse of emerging markets; establishing control and subjugation
Triggering the collapse and bankruptcy of small and medium-sized enterprises
Altering consumption patterns—primarily via the internet and social networks
Transforming retail chains—IMPOSING RETAIL CHAINS OWNED BY THE "DEEP MAFIA," destroying competition
Altering resource supply routes—CONTROL OF SUPPLY ROUTES BY THE "DEEP MAFIA"
Altering production processes—SOLELY UNDER THE DICTATES OF "DEEP MAFIA" COMPANIES
Deindustrialization—of entire nations through various schemes; SEIZING PRODUCTION FACILITIES, DRIVING THEM TO BANKRUPTCY, and RELOCATING THEM to US territory
Altering industrialization—primarily...
Imposing robotics in manufacturing with the aim of...
Imposing alternative distribution and sales systems
Imposing new forms of marketing—FORCED DIGITAL MARKETING
Imposing FORCED DIGITAL SOCIAL MARKETING via social networks and the internet
Changing the consumption system
Changing the resource consumption system
Changing... industrial production
Imposition of the technosphere

4.2./. Goals within the social system

Increasing social inequality –
TOTAL SUBJUGATION
Social systems will be overburdened
Health insurance systems will be overburdened
Mandatory masks
Social distancing
Contact tracing
Vaccination system
Killing the elderly—if anyone survives, mechanical ventilation will finish them off, carrying a 97.2 percent mortality rate.
Preparation for the genocide of a population of 7 billion, or even 1.5 billion.
Substitution of spiritual values
Substitution of family values
Substitution of national traditions
Imposition of global cultural cults – social networks, the Internet
Imposition of alternative communication systems – the de-socialization of people
Imposition of alternative value systems
Imposition of alternative values regarding the family – loss of direct contact, absence of a family value system
Division of nations
Clash of nations, cultures, and social systems
Dehumanization of humanity
Erosion of established psychological norms
Erosion of sexual norms
Erosion of family norms
Erosion of established social systems
Erosion of established norms in daily life
Replacement of personal human relationships with virtual ones

Digitization of the population

Digitization of all spheres of society

Total control of the population

Direct impact on the life of every individual

Imposition of the technosphere

- Freedom of movement

- Freedom of speech

- Freedom of assembly

- Freedom of religious practice

- Freedom of entrepreneurial activity

- Right of access to medical services and treatment

Europe is closing its borders. Economies are closing factories,

Socialization of citizens

Replacement of all forms of human interaction by imposing a digitized intermediary

4.3./. Geopolitical goals

Restriction of trade

Restriction of consumption

Restriction of specific types of production in certain regions

Restriction of political influence and control in certain regions

Imposition of specific influence in specific regions

Replacement of existing influence in specific regions

Creation of dependency of countries on other countries, firms, financial sources, or political influence

Restriction of exports

Control and management of exports

Consequently, control and management of revenues and profits for specific sectors, countries, or firms

Restriction of sales to specific areas within the respective country

Reduction of trade – a sharp decline

Sharp reduction in travel

Sharp reduction in tourism and the hospitality sector (hotels and restaurants)

Sharp reduction in foreign investment

Management and control of foreign investment

Restriction of foreign investment aimed at producing goods and services for the specific regional market or country

Disruption of globalized trade, export, and import routes

Disruption of globalization regarding the free movement of goods, services, and capital.

4.4./. Technological Goals

Implementation of digitalization

Integration of technologies into production, supply chains, and finance via the Internet, social systems, and online sales platforms

Increased digitalization in banking, consumer habits, and payments

Promotion of sectors manageable from home—remotely

Shifting business operations from offices to home-based online models

Rapid automation

Transformation of professions and job types

Elimination of many professions involving significant human interaction

Implementation, management, and control of technologies governing consumption, social systems, public infrastructure, political systems, and economic systems

5/. The COVID-1 Plan – The Dress Rehearsal for a New World Order

5.1. A threat is fabricated—it generates fear, which breeds uncertainty and chaos

November 2019 – March 2020

Origin: China—start of the pandemic in China, spreading globally

Tens of thousands of elderly people lose their lives

Exaggeration of infection and mortality figures

A solution is ostensibly sought

The solution—according to "experts," "specialists," "professors," "scientists," and "virologists" hand-picked by the ruling class—is vaccination. It is presented as the only solution. There is talk of achieving and establishing herd immunity, which necessitates and requires a minimum vaccination rate of 80–85% among the population. All of this is repeated by every conceivable type of media—newspapers, television, radio, the Internet, and Facebook.

THREAT – FEAR – UNCERTAINTY – CHAOS – PANIC

5.2. The imposition of measures is being promoted—deprivation of freedoms and the enforcement of harsh measures, such as lockdowns. The goal is to demonstrate that those in power care about and are concerned for society and the people.

Promotion of the idea of maximum care and concern for society and the well-being of the people.

March 2020 – December 2020

Imposition of measures—mostly senseless, unnecessary, and unconstitutional. This is to be enforced by coercion.

- Shutting down businesses—commerce, the economy, manufacturing;
- Shutting down normal life—lockdowns;
- Introducing measures that violate people's freedoms and rights, restrict their rights and liberties, and constitute gross violations—including breaches of the Constitution.
- Introduction of unnecessary, unconstitutional restrictive measures—limiting movement, work, business, and the economy,
 - Restrictions on businesses—retail, restaurants, hotels, tourism,
 - Halting trade,
 - Halting the economy,
 - Halting production,
 - Controlling the actions and opinions of the majority,
 - Dividing social strata and creating horizontal conflicts between people—service users and service providers (e.g., clients vs. restaurateurs, waiters, bartenders),
 - Creating horizontal conflicts,
 - Creating conflicts between different social strata—consumers, merchants, salespeople, clients, and the administration (vertical level),
 - Penalizing individuals who violate the measures—through fines and other sanctions,
 - Establishing a propaganda system,
 - Establishing a manipulation system,
- Encouraging scientists, researchers, executives, leaders, and others benefiting from the system to propagate concern for society and to enforce measures as an absolute, mandatory necessity;
- Punishing non-compliance among dissenters;
- Sanctioning those who do not submit;
- Mandating the PCR test as the sole means of detecting the COVID-19 virus;
- Creating confusion;
- Presenting only that part of the truth that suits the mafia;
- Manipulating data;
- Misrepresenting data regarding cases, the sick, hospitalizations, and deaths;
- Presenting flawed statistics;
- Presenting incomplete and non-comprehensive data;
- Banning effective treatments;
- Imposing treatments and procedures that lead to higher mortality rates;
- Creating the narrative that the vaccine is the only necessity—mandatory for survival;
- Framing the vaccine as the sole salvation for individuals and humanity;
- Fomenting ever-increasing panic and chaos;
- Causing effective treatment procedures to be forgotten;
- Banning effective treatment procedures;
- Waiting for the vaccine and preparing for its administration, despite it not having completed the full course of research and testing;
- Instilling panic;
- Imposing a new "normal" for life and business. Phase 3 – Imposition of the vaccines

December 2020 – June 2021 –

Imposition of the only mandatory solution—vaccination—a truly lethal solution.

Imposition of vaccines that have not undergone the full testing process.

Promises of a free vaccine; promises of free vaccines from various companies.
Promises of life and protection.
Promises of a return to normality.
Immunization begins for various segments and groups of people: doctors, nurses, medical staff, teachers, and administrative workers.
Imposition of requirements for companies to mandate vaccination for their employees and workers.
Immunization of various strata of society.
Simulation of economic recovery.
Simulation of the recovery of trade.
Simulation of the recovery of services—restaurants and others.
Simulation of the recovery of consumption.
Lies and falsehoods lull the population and cloud rational judgment.
Concealment of vaccine side effects.
Concealment of the benefits and harms of the vaccines.
Concealment of the vaccines' actual ingredients.
Concealment of the actual ingredients and their effects.
Attributing all side effects, drawbacks, and harms of the vaccines to people's pre-existing conditions. It is claimed that vaccines do not cure people's underlying conditions and that deaths are primarily due to these comorbidities.
The narrative of the virus's natural evolution—involving various mutations from different regions—is being promoted. Measures restricting people's movement are being reinforced.
Actions imposing harsh measures on the population, businesses, and others are being justified.
Hospital treatments are being administered without the knowledge of patients or their relatives—treatments and procedures that lead to patient fatalities.
Procedures resulting in patient deaths are being enforced.
Incentives are being offered to doctors and nurses for vaccinating people and administering PCR and other tests.
Doctors and medical teams are being incentivized in cases of patient death.
A procedure is being enforced to label the deceased as having died specifically—and exclusively—from COVID-19.
Public opinion is being manipulated.
Divisions and conflicts are being created between the vaccinated and the unvaccinated, fostering chaos and discord, and leading to riots and interpersonal conflict.
The vaccine is presented as essential for people's health and lives.
The root causes of the illness are not being investigated.
No tests are being conducted to determine whether chemical poisoning is present. No X-rays are required, and no C-reactive protein tests—which indicate the extent of infection and disease—are performed.

Phase 4 – June 2021 – October 2021

Implementation of codes and certificates, and the issuance of certificates to those who have been vaccinated—and *only* to those who have been vaccinated.
Only those who obtain health certificates (or similar documentation) are permitted to go out and enter shops, restaurants, bars, venues, public institutions, and other locations.

Imposing certificates as a requirement for daily life outside the home and for access to various institutions, shops, businesses, and other venues.
Mandating that only vaccinated individuals holding certificates—whether employees or workers—are permitted to work.
Depriving unvaccinated individuals and those without certificates of the right to work or study.
Disregarding the status of those who have recovered from the virus and denying them eligibility for a certificate.
Fostering conflict between certificate holders and non-holders.
Imposing vaccination requirements even on those who have already recovered from the virus.
Granting privileges exclusively to certificate holders.
Denying services to the unvaccinated.
Creating conflict between vaccinated and unvaccinated individuals at the social level.
Mandating paid PCR tests and compulsory vaccination.
Requiring unvaccinated individuals to pay for their own medical treatment if hospitalized.
Shortages of goods in stores, lack of basic food supplies for the population, and a lack of medicines.
Lack of transport connections.
Shortage of drivers.

Control over the population. Phase 5 – Implementation of lockdowns – chaos and the imposition of lockdowns on the entire population

November 2021 – March 2022

Phase 6 – March 2022 – September 2022

MANIPULATION... to facilitate your...

**6/. SCIENTIFIC – UNCOMFORTABLE QUESTIONS FOR THE INSTITUTIONS
MANAGING THE PANDEMIC: the World Health Organization, governments, and other
institutions**

Withholding answers to questions that would provide people with a better understanding of the issue

1. Is it true that there has been a plan for this pandemic since as early as 2001—scenarios from 2019, a 2019 simulation, and vaccines patented as early as 2010?
 2. Is it true that there is a UN plan for the pandemic—a plan dating back to 1968 involving the Illuminati, the Club of Rome, and institutions supported by Rockefeller, the Rockefeller Foundation, and others?
 3. Is it true that the World Health Organization has been sponsored primarily and almost exclusively by companies linked to Masons and the "Deep State" mafia—such as the Bill Gates Foundation and others?
 4. Is it true that the vaccines were patented long before the pandemic emerged? 5. Is it true that, for this reason, analysis of the vaccine contents is not permitted?
 6. Is it true that the creator of the PCR test—a Nobel laureate—stated himself that it is not a test for viruses?
 7. Is it true that the creator of mRNA technology stated himself that it is a form of gene therapy designed to alter human DNA?
 8. Is it true that the European Commission purchased hundreds of millions of PCR test kits as early as 2017?
 9. Is it true that a pandemic plan and strategy already existed within the European Commission as early as February 2019?
 10. Why did the World Health Organization change the definition of a pandemic and declare one when there were only a few dozen infected individuals?
 11. Why did the World Health Organization ban autopsies, thereby preventing the truth about the virus from being revealed?
 12. Why has SARS-CoV-2 still not been isolated and purified in a manner that meets all scientific standards?
 13. Why is independent laboratory analysis of vaccine contents not permitted?
 14. Why is the analysis of vaccine contents prohibited?
 15. Is it because there are patents covering components of the vaccines that pose a risk to human health and life?
 16. Why are manufacturing companies absolved of liability for the consequences of, and guarantees regarding, the vaccines they produce? 17. Why are there no clearly defined treatment protocols and procedures?
 18. Why is there no research on the long-term effects and post-vaccination reactions associated with the vaccines?
 19. Why do people who have received two or more doses still get sick?
 20. Why do vaccinated in
-
21. Why is there no answer to the question of whether mRNA vaccines constitute genetic engineering that alters human DNA and is passed on to future generations?
 22. Why is it that in over 90 percent of deaths attributed to COVID-19, the cause of death is thrombosis and blood clots in the affected organs?
 23. Why is there no investigation into the blood and the nature of the substances causing blood poisoning during the infection process?
 24. Why is the content of the tanks used by aircraft to spray chemical substances not being analyzed?
 25. Why is there no answer as to whether the vaccines contain graphene oxide and other nanoparticles?
 26. Why is there no answer regarding the impact of high and other frequencies on the conductivity of graphene oxide and its behavior as a "living organism" within the human body?
 27. Why, in countries with vaccination rates exceeding 70–80 percent, does the number of infections continue to rise, with a portion of the infected individuals being vaccinated?
 28. Why is the incidence of disease and mortality much lower in countries without total lockdowns and with minimal lifestyle restrictions compared to countries with high vaccination rates (over 70 percent) and total lockdowns?
 29. Why are mortality and infection rates lower in countries without lockdowns compared to countries with full lockdowns, such as Germany and England? 10. Why are children being vaccinated when science proves that the incidence of the disease among them will be minimal?

30. Why is a network of supercomputers being established along specific lines worldwide?
31. Why is information on citizens' DNA being collected, given the evidence that every human DNA possesses a unique spectral emission?
32. Is the aim perhaps to control them via 5G and other networks?
33. Why is it not being demonstrated that when high frequencies are applied to graphene oxide, it begins to behave like a living organism, cutting and destroying the surrounding human tissues?

World Bank COVID-19 program: "COVID-19 Strategic Preparedness and Response Program."

Phase One

- o— it presents a response strategy for the "pandemic"
- o— it is neither a political nor a medical strategy
- o— it outlines a clear plan for mass testing
- o— it creates a vaccination plan
- o— a plan for mandatory measures
- o— a plan for preparing isolation facilities
- o— a proposal regarding the need to mobilize military support (NATO)

This program concerns the pandemic. Phase One will continue until 2025.

Phase Two is implemented based on the outcome of Phase 1; a "narrow window of opportunity" is created, compelling all countries to adhere to the measures and the plan.

In other words, This plan envisages and anticipates second, third, and fourth waves leading up to 2025.

The goal is to achieve full digitalization across all sectors and industries by 2025, creating a "total society" and integrating supercomputers. Such supercomputers are being deployed across Europe—specifically in Finland, Italy, Luxembourg, Portugal, Slovenia, Spain, the Czech Republic, and Bulgaria—thereby covering the entire European territory.

In reality, this leads to digital feudalism; however, in our view, it amounts to digital *mafiosism*.

People are to be confined within global digital concentration camps, stripped of all rights and freedoms.

OBJECTIVES TO BE ACHIEVED:

- digital economy,
- digital currency,
- digital healthcare,
- digital education system,
- digital judicial system,
- digital social system,
- digital credit system for 24-hour control,
- digital biometric surveillance, control, and enforcement system.

This plan is scheduled for completion by March 31, 2025; in practice, this entails 25 projects that must be implemented during the program's first phase.

8/. Theory of Social Human Genocide and the Tunnel-Spiral-Centrifuge Cycle (Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva, 2006) – Applied during COVID-19: The Dress Rehearsal for Imposing a New World Order

In 2006, Prof. Momchil Dobrev and Mariola Garibova formulated the Theory of Social Human Genocide. This theory describes the use of all available means of genocide and pressure against the population to create and impose a "new normality"—the New World Order.

This article will not delve into the details of the theory itself, which outlines how this is achieved through food, pharmaceuticals, healthcare, education, chemical spraying, GMOs, the creation of new drugs that induce new diseases, the amplification of deadly diseases, the dismantling of healthcare systems, and the deprivation of healthcare of effective, low-cost treatment methods. It also addresses the imposition of an educational system designed to dumb down and "zombify" the youth, the rewriting of history, and the application of economic pressure through high prices and costs for services and products. The process described in the "Theory and Practice of Social-Personal Genocide" employs a cycle structured as follows:

CYCLE/FORMULA OF HUMAN SOCIAL-PERSONAL GENOCIDE

Threat – fear, insecurity – chaos – panic, manipulation, propaganda, proposal of a solution, proposal to establish a new norm, imposition of new laws to satisfy this new norm—this genocide.

Creation of a threat and fear.

Maintaining fear—scaled to the magnitude of the threat.

Intensifying fear and the threat.
Expanding fear and the threat.
Multiplying fear and the threat.
Modifying fear and the threat.
Creating fear and threats at various levels of needs.
Creating fear and threats at various levels of perception.
Stress – maintaining stress, increasing fear, multiplying fear/stress.
Inducing a change in the individual's normal state.
Inducing a different normality—a new one.
Inducing mental illnesses and psychological disorders.

8.1./ CYCLE – FORMULA OF THE TUNNEL-SPIRAL-CENTRIFUGE SYSTEM OF HUMAN GENOCIDE, as exemplified by COVID-19

VIRUS – THREAT – ANXIETY/UNEASE – STRESS – FEAR – TENSION – UNCERTAINTY – CHAOS – PANIC – MENTAL DISORDERS – proposed solution: vaccine/lockdown – NEW VIRUS VARIANT – LOCKDOWN, VACCINE – MANDATORY VACCINATION – EASING OF MEASURES/REDUCTION OF MEASURES – NEW VARIANT/VIRUS MODIFICATION – NEW WAVE – /ENTERING A NEW WAVE/ – IMPOSITION OF NEW LOCKDOWN/NEW RESTRICTIONS, PROMPTING MANDATORY VACCINATION – EASING OF MEASURES/REDUCTION OF MEASURES – PROMPTING VACCINATION /OTHER AGE GROUPS/ – NEW VIRUS (MODIFIED) – NEW WAVE – BOOSTER DOSE – and so the cycle spins in a spiral, with manipulation present at every level.

The cycle gathers speed and accelerates. IT ACTS LIKE A CENTRIFUGE. The cycle is a spiral.

The process drives ever-increasing vaccination—with new rounds occurring at set intervals via booster doses—followed by yet another booster.

With each cycle, the tension and pressure on the population intensify and multiply, and the coercion applied to the public grows.

With each cycle, the pressure and coercion directed at dissenters—those unwilling to get vaccinated—also increase.

With each cycle, manipulation and anger escalate, pitting the vaccinated against the unvaccinated and those refusing vaccination; this dynamic is fueled by state manipulation aimed at inciting actual conflict between different groups within the same social stratum, thereby shifting the focus away from the core issue and channeling anger into the divide between the vaccinated, the unvaccinated, and those unwilling to be vaccinated. With each cycle, more groups of people are drawn in—following the first wave come the second and third—triggering mandatory vaccination for children and young people, as well as compulsory vaccination for adults and for employees in venues such as restaurants, malls, and industrial enterprises.

With each cycle, more people from various walks of life are included—from manual laborers to employees in state and municipal organizations and institutions.

With each cycle, pressure mounts on companies, industries, and manufacturing plants to bar unvaccinated workers and employees from the workplace. With each cycle, the pressure, polarization, and confrontation between the vaccinated, the unvaccinated, and those unwilling to get vaccinated intensify.

With each cycle, the pressure, polarization, and confrontation between different segments of society—various groups of workers and employees, as well as different types of industries and enterprises—also intensify.

With each cycle, financial pressure on the population intensifies: the prices of medicines rise continuously—increasing up to tenfold—along with the costs of services, food, and living expenses such as electricity, water, and gas.

Fear—the secret weapon for manipulating, managing, and controlling the population.

Instilling fear is a method of managing human beings.

8.2. STAGES IN THE PROCESS OF CREATING FEAR (based on the "Theory and Practice of Creating and Managing Fear" by Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobрева, 2006):

Creating a threat that generates fear.
Maintaining the fear—in line with the magnitude of the threat.
Intensifying the fear and the threat.
Expanding the fear and the threat.
Multiplying the fear and the threat.

Modifying the fear and the threat.

Creating fear and threats at various levels of needs.

Creating fear and threats at various levels of perception.

Stress—maintaining stress, increasing fear, multiplying fear/stress.

Inducing a change in a person's normal state.

Inducing an alternative "normality."

Inducing mental illnesses and psychological disorders.

The threat creates fear. Intensification, persistence, expansion, and multiplication of the threat;

A threat to life and health, and to the ability to secure food while the economy is blocked and not functioning;

A threat to one's family, relationships, social ties, and the respect held within the family—among children, relatives, parents, and loved ones—as well as a threat to intimate romantic relationships with a spouse or partner;

A threat to one's livelihood amidst lockdowns—regarding the means to survive and the ability to pay bills and cover expenses for family, children, and daily life;

A threat concerning life within the immediate environment, neighborhood, town, village, or region;

A threat regarding the ability to provide food for family, relatives, loved ones, and elderly parents;

A threat regarding the ability to obtain medication and the availability of necessary drugs in pharmacies;

A threat concerning access to hospitals and outpatient clinics;

A threat to one's home;

A threat to personal safety regarding the risk of infection through contact with neighbors, loved ones, friends, relatives, colleagues, or staff at pharmacies, clinics, and hospitals. The threat concerns whether he will be able to work, whether he might be fired, whether he will keep his job, and how he will function during lockouts.

The threat extends to his career, the position or rank he has attained, and his professional standing and credibility.

The threat involves whether he will preserve the value of his reputation and his professional standing.

The threat concerns whether he will maintain his social standing and his professional status.

The threat involves whether he will retain the respect of his colleagues, friends, relatives, loved ones, and neighbors.

The threat lies in whether he will retain his prestige and the respect of his colleagues at work—at the level he has currently attained.

The threat concerns whether he will maintain his professional growth, the standing he has achieved, professional recognition, and the respect of everyone he interacts with in his workplace.

An imagined threat arises. This threat generates stress at all levels of consciousness.

The threat instills fear across all segments of the population: schoolchildren, university students, workers, bosses, civil servants, and private-sector employees.

Fear permeates every level of society.

Fear among children—from toddlers and kindergarteners to primary and secondary school students and university students.

Fear among parents of children of all ages.

Fear among employees.

Fear among people from different walks of life:

- among schoolchildren and fellow students;

- among passengers using urban and intercity transport—cars, buses, city transit, the metro, trains, and airplanes.

Fear among citizens visiting various institutions and facilities:

- hospitals

- outpatient clinics

- theaters

- cinemas

- venues—gyms, sports halls

- salons

- shops

- small shops

- supermarkets

- large chain stores (over 300 sq. m.) and malls

- retail outlets

- wholesale stores

Fear is generated at every level. At the level of physiological needs—regarding whether I will survive, whether I will fall ill, or whether I might be infected by relatives, friends, administrative staff, colleagues, a boss, or personnel in hospitals, clinics, emergency services, public venues, or universities...

Fear deeply damages the psyche.

In the case of COVID-19, fear does not transform into courage but into helplessness.

The fear generated during the pandemic is triggered by stress, frustration, anxiety, crisis, chaos, panic, and so on; here, we are dealing with a specific type of fear—a phobia, a pathological form of fear regarding the pandemic.

Fear is linked to affect.

Affect arises rapidly and disrupts the normal flow of consciousness, breaking its unity and harmony.

In this instance, the affect is prolonged and intensifying; it attacks and obliterates psychological resilience.

In this specific case, the affect narrows the field of consciousness, striving to take it over completely and displace everything else.

The problem here is that the affect leads to a genuine flight from reality, yet there is nowhere to go—there is no escape.

In this specific case, the affect numbs a person's sensitivity; their senses fail to function correctly or become unreliable.

The affect of fear completely paralyzes thought. A state of heightened emotional arousal (affect) suppresses the will. A person's actions become impulsive, and they become susceptible to manipulation by propaganda and the media. Such emotional arousal triggers illogical thinking.

Fear develops at all levels of consciousness and the subconscious, and it manifests across all levels of human needs.

Thus, fear is a highly unpleasant sensation and a primal emotion that arises naturally and spontaneously in both animals and humans at the slightest perception of danger or harm. The physical process that triggers fear originates in the brain, immediately manifesting in physical symptoms such as elevated blood pressure, a spike in blood glucose, heart palpitations, vertigo, dizziness, shortness of breath, a sense of helplessness, a fear of death or going mad, and an actual loss of control over one's reactions.

8.3... Manipulation carried out throughout the entire process

Constant propaganda and the continuous shaping of public opinion throughout this time.

Fears target every type of need and the entire hierarchy of needs.

Fears target every aspect of life—survival and security.

The intervals are short; the amplitude is immense—constant and ever-increasing.

Manipulation at all levels—primarily through television and via scientists and mathematicians offering advice and conclusions on medical issues.

Pressure and restrictions target specific sectors: restaurants, hotels, schools, venues, universities, and courts.

Manipulation at all levels.

The goal of this manipulation is control—managing people and their consciousness. Here, the manipulation is direct, unconcealed, overt, and intense—a manipulation of the public that is simultaneously real yet masked. Manipulators identify people's weak points: the fear of death, the fear of infection, and the heightened dread of contracting a disease and dying.

There is no attempt to build trust, as the situation poses a genuine threat to people's health and lives.

The aim here is to instill a sense of duty—both toward oneself and toward others. This process unfolds at an unconscious level.

Constant, repetitive messaging aims to "zombify" the population.

It all takes place at a subconscious level; the goal is control—specifically, controlling people's will.

In reality, mass manipulation of consciousness is taking place.

This manipulation is tangible and alters people's perceptions and behavior.

The tactic is covert yet coercive.

The manipulation aims to steer behavior by instilling fear, threats, and stress. Effectively, people are denied the opportunity to think, draw conclusions, or analyze data, facts, and evidence.

Constant repetition aims to foster trust and a belief that the actions and decisions of institutions are correct.

In effect, this constitutes psychological influence—even psychological violence—directed at people's consciousness, actions, behavior, and reactions.

A lie repeated incessantly, day after day, leads to forced acceptance.

Ultimately, the manipulation targets people's value systems, beliefs, and stereotypes, aiming to disregard or completely erase them in the process.

People are effectively deprived of freedom of choice—of any choice whatsoever—and stripped of their free will. They are left disoriented.

This manipulation employs not only traditional media and the press but all information channels, including the Internet and others. In effect, the coercive nature of the manipulation succeeds.

The manipulation leads to the conclusion that everything is natural and inevitable.

During this brief yet intense process of manipulation, people have no time to question the messages, data, or facts.

In reality, the manipulation conceals aggressive intentions and behavior.

Manipulators are well aware of people's psychological vulnerabilities.

They show no concern whatsoever for the harm inflicted upon people—be it moral, emotional, psychological, behavioral, or otherwise.

Deception is effectively built into the process.

Manipulators provide no direct, scientifically grounded answers; instead, the manipulation is carried out through threats.

They amplify fear and uncertainty.

The goal is unconditional submission.

The aim is obedience and the execution of any and all actions and measures.

In effect, this eliminates the conscious resistance that allows people to think, discuss, and evaluate data, facts, and evidence.

It seeks to sow confusion through accusations.

The manipulation exploits anger, fear, and threats.

It stifles independence and the capacity to resist; threats generate fear and foster naivety, ensuring total compliance and effectively crushing the mind—stripping people of their right to hold convictions, to reflect, and to find meaning or engage in independent thought. Manipulation renders people one hundred percent emotionally dependent on the machinations of media, information networks, and systems.

Through manipulation, trust is imposed by force.

The aim and result of manipulation is the blocking of consciousness and thought—inhibiting the ability to reason, draw conclusions, and make assertions, as well as blocking the capacity to analyze data, facts, and results, to deconstruct falsehoods, to evaluate truth, and to distinguish lies from the truth.

Here, there is neither truth nor falsehood; the only "truth" is the one that is forcibly asserted.

In reality, what is taking place is the substitution of facts and evidence.

Here, there is neither truth nor falsehood; only the asserted narrative stands as the forced truth.

In reality, a substitution of facts and evidence is taking place.

Personal convictions—political, religious, and moral—as well as worldviews, habits, behavioral styles, and mindsets are being attacked, manipulated, erased, and destroyed through psychological and emotional suppression and coercion.

There is fierce pressure and compulsion.

The pace of manipulation is rapid and relentless; it occurs across all channels and by every possible means, moving at a speed that leaves no time for reflection.

People are compelled to place blind trust in everything presented at the moment—a state of affairs that has persisted for over two and a half years.

Those in power leverage their authority.

People are neither permitted nor given the time to weigh the pros and cons.

Conclusions, behaviors, and emotions are imposed upon them; fear is enforced, spread, and constantly instilled, eventually spiraling into depression and psychological disorders.

The pressure is omnipresent—in the family, at work, on the street, in institutions, on public transport, in shops, malls, clinics, hospitals, universities, and schools.

The aim—and the result—is the demoralization of the individual and a total, absolute dependence on the authorities for direction regarding action and behavior. A life lived in constant fear, stress, and threats from all sides—stemming from every possible type of relationship.

People's vulnerabilities are targeted—their fears, anger, and the fear for their lives, themselves, loved ones, relatives, friends, and colleagues.

People's negative feelings are targeted—sadness, fear, anger, hostility, hopelessness, disappointment, hatred, and guilt.

The sole objective is to trigger negative feelings and emotions—such as anger, hatred, fear, stress, sadness, guilt, frustration, indignation, shame, and vulnerability.

Consciousness, reason, and rational thought are bypassed; the mind is subjected to total influence, and human behavior is manipulated and channeled.

Through manipulation, they control people's negative emotions and feelings, instilling only negativity and amplifying it—intensifying it to an extreme degree, rapidly, continuously, and over periods spanning months or years.

In reality, this manipulation destroys the individual's personality, their life, and their sense of purpose. Feelings of guilt intensify.

Aggression, anger, and guilt are generated.

Total, 100% brainwashing—stripping the individual of their ability to feel and think clearly.

Manipulation targeting all levels of human needs.

The individual's value system and survival instinct are destroyed; instead, they are conditioned to adopt behaviors that are not their own. At the same time, alternative opinions are disallowed. Hostility is fostered toward those who hold alternative views, exhibit different behaviors, or express dissenting thoughts and conclusions.

Complete control over feelings, emotions, thoughts, and consciousness.

Conditions are created to suppress all positive human emotions and feelings.

These are replaced and overshadowed exclusively by negative emotions and feelings.

Manipulating people is a complex technique used by many fraudsters to secure compensation or benefits. Human psychology makes people susceptible to control. Even during business negotiations, parties attempt to pressure one another to advance their own viewpoints. To protect yourself from such external influence, it is essential to familiarize yourself with various methods of manipulation. Manipulation creates and sustains only negative feelings in people—such as sadness, anger, fear, hostility, hopelessness, disappointment, a sense of entrapment, helplessness, hatred, guilt, resistance, panic, cruelty, and rudeness. Positive feelings and emotions—such as happiness, humor, joy, love, gratitude, hope, and compassion—are suppressed; they are eliminated and denied any opportunity to emerge.

Propaganda is disseminated by the media, utilizing scientists, immunologists, doctors, mathematicians, and statisticians. They all speak in unison, offering commentary, citations, and discussions, and—notably—drawing the very same conclusions, thereby ratcheting up tension.

9/. The World Health Organization (WHO) and its role in the entire process of imposing a New World Order. It acts as a supranational organization that imposes rules, laws, and procedures, strips nations of their sovereignty, and manages processes across all countries to enforce—through pandemics—the New World Order, a new form of social genocide, and all other types of genocide, including financial and human.

77th World Health Assembly (May 27, 2024 – June 1, 2024) – the plan to impose AGREEMENTS AND REGULATIONS binding on all World Health Organization member states, with the ultimate goal of imposing a NEW WORLD ORDER and reducing the Earth's population to 500 million.

The WHO is a specialized agency of the United Nations (UN) that acts and functions as the coordinating body for international public health.

It was established on April 7, 1948, with its headquarters in Geneva, Switzerland. It effectively inherited the mandate and resources of the Health Organization, which had been an agency of the League of Nations.

As international law took shape in the late 19th and early 20th centuries, the idea of establishing an international body gained traction. On December 9, 1907, a convention was signed in Rome to create an international health organization by the governments of the United Kingdom, Belgium, Brazil, Spain, the USA, France, the Netherlands, Italy, Russia, Portugal, Switzerland, and Egypt.

In practice, the League of Nations' Health Organization was established after World War I.

That is to say... ..aims at disease prevention and control;

Efforts to address the issue date back to World War II;

The World Health Organization has been involved in this process from the very beginning.

The World Health Organization was established in 1948 as a specialized agency of the UN. The WHO emblem depicts the Serpent of Moses coiled around a wheel—a symbol of the "all-seeing eye"—set against an image of a flat earth surrounded by two wheat stalks (symbolizing the harvest) and nine figures.

Each wheat stalk contains 13 elements, symbolizing the 13 "Tribes of Israel"—representing the 13 Illuminati families.

At the 63rd World Health Assembly, a report prepared by the Secretariat detailed the voluntary contributions received by the World Health Organization for the 2008–2009 period.

According to this report, the US government contributed 424.5 million US dollars, while the Bill & Melinda Gates Foundation contributed 338.7 million US dollars. The Gates Foundation is a donor to the Global Alliance for Vaccines and Immunization (GAVI), having contributed over \$1.14 billion between 1999 and 2009, whereas the US government donated only \$569 million during the 2001–2009 period.

For 30 years, human rights organizations and various activists have accused UNICEF and the World Health Organization of orchestrating a campaign to sterilize populations in various countries using vaccines intended for other diseases.

For instance, in 1993, a scientist from the Institute for Biomedical Research in Innsbruck (part of the Austrian Academy of Sciences) collaborated with World Health Organization scientists to develop birth-control vaccines. In 2004, Nigeria boycotted a vaccine specifically designed for sterilization; the vaccine contained estradiol, a form of the hormone estrogen.

This hormone causes infertility.

In 1992, the World Health Organization removed "homosexuality" from its list of diseases, effectively providing grounds and impetus for the spread of "genderism."

In 2009, the World Health Organization prepared to roll out 4.9 to 5 billion flu vaccines. The Catholic organization "Mexican Committee for Life" is organizing protests.

The Rockefeller Foundation, working in conjunction with the World Bank, the UN Development Programme, the Ford Foundation, and others, is working on the development of contraceptive vaccines.

The World Health Organization is gaining the authority not only to issue recommendations but also—as is its custom—to make demands and issue orders to nations.

On January 30, 2020, the World Health Organization declared a state of emergency without sufficient grounds, with only 34 confirmed cases and one death.

The data is as follows:

On December 31, 2019, the first 27 cases appeared in China—in Wuhan.

On January 11, 2020 – 1 death in China.

On January 20, 2020 – 1 case in South Korea.

On January 22, 2020 – 1 case in Thailand.

On January 24, 2020 – 2 cases in France.

On January 25, 2020 – 1 case in Austria.

On January 26, 2020 – 1 case in Canada.

On January 28, 2020 – 1 case in Germany.

On March 11, 2020, the World Health Organization declared a pandemic.

Earlier, on September 12, 2019, the Global Vaccination Summit took place in Brussels. The main organizers were the World Health Organization and the European Commission.

The mRNA technology and nanotechnology

Everyone will be connected to the 5G network and to supercomputers that will control and manage them. In this way, there will be continuous control over the individual and their life. The chip will transmit all personal data; through nanoparticles or nanobots, it will be possible to control any part of the human body and alter DNA via the 5G network. The chip will receive frequencies emitted by the network in the 24–90 GHz range. Cryptocurrency will be mined using the chip and the network. In the event of disobedience by a person with a chip, commands could be sent via nanoparticles to the heart or brain to trigger a heart attack or stroke. Everyone will be marked with the number of the Devil—666—as written in the Book of Revelation, Chapter 13.

Vaccines will be imposed through terror. The vaccines will contain nanoparticles. Through specific settings, the nanoparticles will be able to attach to molecules from other coronaviruses.

The nanoparticles measure 25 nanometers and are so small that, once injected, they pass through the intercellular matrix of the skin and make their way to the lymph nodes. Within minutes, they reach concentrations thousands of times higher than those found in the skin. The nanoparticles in these vaccines can be directed to move rapidly in a desired direction, compelling human biological cells to move and grow along specific paths. As early as 2009, scientists from a London university developed "micro-shuttles" that could be injected during vaccination to deliver medication to living cells. A microscopic chip could be embedded within these nanoparticles to automatically control the dosage of the medication. The release of substances could also be triggered by an external command—from a doctor or another party—thereby creating a form of personalized micro-therapy. The greatest advantage of using such micro-capsules is their high stability within the human body, which protects their contents. These capsules can serve as reservoirs for medication within the body, storing it for later use. Whoever controls this technology effectively controls human health. In other words, various medications can be released to target specific cells. Consequently, the nanoparticles in vaccines can vastly amplify their effects, or either enhance or devastate a person's immune system. Chip implantation and

vaccination are linked as part of a single process; the justification given was that chip implantation is necessary for vaccination—meaning vaccination becomes a vehicle for chip implantation. The concept of digital human identification—specifically via the implantation of an electronic microchip into the human body—has been under consideration since September 11, 2001.

In this way, a person could be controlled.

Signals sent from the microchip could induce pain, mental confusion, blindness, deafness, and other effects. In other words, this could allow a person to be turned into a bio-robot or a cyborg.

Nanoparticles introduced into the human circulatory system via a vaccine would travel and move throughout the entire body.

Every COVID-19 vaccine would be equipped with Pentagon nanotechnology.

This involves DNA nanotechnology developed by the US Department of Defense and the research agency DARPA.

On March 12, 2020, INOVIO Pharmaceuticals announced that it had received a new \$5 million grant from the Bill & Melinda Gates Foundation to accelerate testing and production of its proprietary smart device, CELLECTRA 3PSP. This device is designed for the intradermal/subcutaneous delivery of INO-4800, a DNA vaccine for COVID-19.

This suggests that the vaccine was ready even before the pandemic began. Even before a "state of emergency" regarding the pandemic was declared in Western nations, additional funding was announced for the special device required to deliver this vaccine into the human body. The question arises: why is a special device necessary?

As early as March 12, 2020, the working name of the vaccine—which had already been manufactured—was known: INO-4800. Plans were in place for this vaccine to enter Phase 1 clinical trials in the US as early as April 2020, backed by an additional \$9 million in funding.

In other words, Bill Gates is funding the device used to inject the vaccine. He is also paying for the vaccine itself—through another one of his organizations, CEPI.

Separately, the European Commission has reached an agreement with Bill Gates and raised a total of 8 billion euros; this means Bill Gates and the Pentagon stand to reap huge profits simply from the financing stage.

Initial development of the CELLECTRA 3PSP device began back in 2019 with an \$8.1 million grant from the Medical CBRN Defense Consortium, an initiative of the U.S. Defense Threat Reduction Agency (DTRA). The coronavirus was created back in 2015 in the USA at the Galveston National Laboratory at the University of Texas.

10/. SEIZURE AND CONTROL OF THE HEALTH, NATIONAL, AND POLITICAL SOVEREIGNTY OF EVERY STATE THROUGH THE WORLD HEALTH ORGANIZATION

The goal is DICTATION, DICTATORSHIP, GENOCIDE, and the implementation of a plan TO IMPOSE A WORLD ORDER through a supranational organization whose plans, agreements, and other measures WOULD BE BINDING ON EVERY STATE.

In other words, through the WHO, the "deep state" mafia seeks to seize control of the entire world and realize its objectives of reducing the global population from 8 billion to 500 million inhabitants.

77th World Health Assembly of the World Health Organization: May 27, 2024 – June 1, 2024

To this end, the WHO is establishing the so-called IHR (International Health Regulations); negotiations regarding these are currently underway during the 77th World Health Assembly of the World Health Organization (May 27, 2024 – June 1, 2024).

Prior to this, negotiations between the WHO and member states regarding the PANDEMIC INSTRUMENT had been stalled. The plan and steps to impose a supranational organization—designed to govern all nations, launch a pandemic, and implement the agenda of the "Deep Mafia"—involve the following:

PROCEDURES

WHO Member States have agreed to Executive Board Decision 150(3) (2022) and World Health Assembly Decision WHA75(9) (2022), thereby initiating a process to amend the current International Health Regulations (2005) (IHR).

This is taking place in parallel with the negotiation process for drafting a pandemic instrument.

Negotiations regarding the pandemic instrument and the entire process are led by WHO Member States.

At the national level, the competent authority for each country is its respective Ministry of Health.

During the negotiations held between April 22 and 26, 2024, the following key terms were discussed:

- "early warning signal"

This signal is issued unilaterally by the WHO Director-General to all Member States. In other words, the procedure is triggered by a signal issued at the Director-General's sole discretion.

- "event"

This refers to an indication of the manifestation of a disease or a circumstance that creates the potential for disease. The actual presence or manifestation of a disease is not the point of discussion here. - "Sick person" means an individual suffering from or affected by a physical illness that may pose a risk to public health. Everything depends on the free interpretation of the WHO Director-General.

- "National IHR Authority" means the entity designated or established by the State at the national level to coordinate the implementation of these Regulations within its territory. This implies that this administration will be specialized and established at the request and according to the directives of the WHO.

- "National IHR Focal Point" means the national center designated by each State that will be accessible for communications with WHO IHR Contact Points under these Regulations. The connection will be directly with the WHO, without any national intermediation. Powers of the WHO Director-General that demonstrate the stripping away of health sovereignty, national sovereignty, national security sovereignty, political sovereignty, public sovereignty, and the sovereignty guaranteeing human rights and freedoms:

- The WHO Director-General holds the following powers, which GUARANTEE SOLE CONTROL over all procedures, directives, and agreements that are binding on every state:

1/. Determines, for the member states on whose territory an event occurs, whether that event constitutes an emergency or a pandemic, in accordance with the criteria and procedures set out in the new health regulations.

2/. If the WHO Director-General and the member states fail to reach a consensus within 48 hours as to whether the event constitutes an emergency, the procedure under Article 49 is applied to the dissenting state.

This entails convening the Emergency Committee and issuing binding recommendations to the dissenting state.

- If the WHO Director-General determines that a public health emergency of international concern exists in a given country or countries—including a pandemic—the WHO, under the Director-General's orders, may mobilize international assistance on the ground; that is, international forces and forces from other states acting under the *direct* command of the WHO Director-General.

At the same time, the member state must respond to such a proposal as soon as possible, including providing the reasons for its response.

THIS PROVES that the WHO can enter the country in question without its consent and do whatever it pleases within that country.

THIS AMOUNTS TO A TAKEOVER OF THE STATE WITHOUT ANY SANCTIONS AND WITHOUT REQUIRING THE CONSENT OF THE STATE IN QUESTION.

- Under Article 12, the WHO Director-General issues temporary recommendations based on Article 49, which may be modified or extended.

Such temporary recommendations may continue to be issued even after the pandemic has ended. In other words, at the discretion of the Director-General, the WHO can do whatever it pleases in the respective country or countries, disregarding any sovereignty of that state, as well as its constitution and laws.

National authorities in the respective countries await the WHO Director-General to determine all actions and to decide whether the pandemic has passed or not. He is the one who makes this decision—not any institution within the country itself.

This constitutes a real dictatorship, an absolute diktat, and an unconditional dictatorship.

- Measures imposed under the procedure of Article 49 cannot be lifted earlier than three months after their announcement. During this time, the Director-General and the WHO effectively govern everyone and everything in a country without offering any explanations, while overriding national laws and the constitution. During this time, the WHO Director-General can declare quarantines, lockdowns, and mandate all manner of masks, tests, restrictions, and certificates—and even *compulsory* vaccination.

- This is in addition to "standard measures," which encompass all kinds of restrictions—primarily mandatory ones.

- The WHO Director-General has the authority to impose restrictions in emergency situations based on two specific criteria.

- In such cases, the WHO Director-General may—at his own discretion—utilize other international organizations and bodies, including even *militarized forces*, to enforce the measures and actions he has ordered.

- In accordance with Article 12, the Director-General assesses the availability and accessibility of health products required to respond to a public health emergency.
- In other words, this means the Director-General personally determines the treatment, measures, interventions, and the imposition of mandatory vaccination.
- WHO oversight and control regarding ports, airports, and entry/exit points are intensified, as is the monitoring of certificates and compliance with certification procedures.
- That is to say... This means that all forms of national sovereignty are being usurped—maritime, border, national security, airspace, and political sovereignty.

Any actions or reactions by the respective state's governments, national agencies, national police, or military forces are excluded. In other words, the WHO Director-General may utilize any other non-national bodies and organizations—including NATO troops.

Each state must develop, strengthen, and maintain—no later than five years after these Regulations (which are binding on every state) enter into force—core capabilities for detection, assessment, notification, and reporting to the WHO.

The WHO collects and evaluates this information without regard for the assessment made by the respective state.

Furthermore, states are required to provide this information every 24 hours following notification to the WHO. All consultations between the state and the WHO take place behind closed doors and are confidential.

If the respective member state does not accept the cooperation proposal imposed by the WHO, the WHO has the right to share the information it possesses with other member states.

The WHO encourages—and effectively compels—the member state in question to accept the WHO's cooperation proposal and its management of the country's affairs.

In practice, if a state disagrees with the WHO, the WHO can force neighboring countries to close their borders—air, land, and sea—with that state, thereby compelling it to accept the WHO's guidelines and comply with its orders.

- In addition to standard measures for disinfection, deratization, and disinfestation, the WHO may require information regarding the full itinerary of passengers, baggage, or shipments, as well as a non-invasive medical examination of a "suspected" passenger.

The Regulation is MANDATORY.

Point 14. Travelers required to undergo vaccination or be offered prophylactic treatment in accordance with these Regulations—or their parents or legal guardians—must be informed of any risks associated with the vaccination or the use of preventive treatment, as well as the risks of the disease itself and the risks of *not* undergoing vaccination or preventive treatment.

In other words, EVERY TRAVELER IS OBLIGED TO UNDERGO the measures specified in Point 14—vaccination and others. THIS IS COERCION; THIS IS A DIKTAT.

This applies to EVERY TRAVELER, even if they are not a patient.

EVERY TRAVELER WILL HAVE, IN REALITY, NO RIGHT OF CHOICE.

A traveler far from home effectively accepts vaccination under duress in order to return home.

In other words, there are—and can be—no non-compliant travelers here.

In other words, the WHO assumes the authority to bypass the respective state and impose whatever measures and actions it chooses upon travelers. The measures concerning means of transport are even stricter.

For any passenger traveling with close associates, those associates effectively also fall under the scope of the WHO's actions and measures.

Seizing control of national sovereignty—and sovereignty of all kinds:

Article 42 stipulates that measures implemented by states must be in accordance with national legislation.

At the same time, Article 43 requires that national legislation align with international norms—specifically those related to public health.

In other words, national legislation is disregarded in favor of the regulations and international instruments of a supranational organization like the WHO.

Simultaneously, sovereignty over personal data and personal information is also stripped away.

Under Article 42, Paragraph 2, it is theoretically—though not practically—permissible for a state to apply only its own national measures; however, should a state dare to do so, Paragraph 6 grants it a three-month period to reconsider its actions and ultimately comply with WHO criteria and recommendations. While personal and health data used to identify an individual—as defined in Article 45—are confidential, they may nonetheless be processed and disclosed when necessary at the request of the WHO.

- The cooperation framework entails reporting to the WHO on the measures taken by individual states.
- Under Article 45, personal and health data relating to an identified or identifiable individual are confidential; however, they may be processed and disclosed when necessary for the purposes of assessing and managing public health risks—and, naturally, at the WHO's request.
- Who compiles the list of experts for the IHR (International Health Regulations)? Who appoints a member from each state and regional integration organization? Who establishes the Emergency Committee? Who appoints the Emergency Committee's consultants? There is only one answer: the WHO Director-General. You can see how, by submitting nominations for membership in these bodies, states themselves install bureaucrats within the WHO to act as agents of a dictatorship. Yet later, they claim to us that they are not carrying out the WHO's will. They are right, in a sense, because they have effectively delegated that will to the bureaucrat sent to the WHO—whose job is to adhere to the organization's statutes and policies. That individual ceases to work for the state they represent. That is why it is pointless to ask who our delegates to the WHO actually are. Whoever they may be—they are no longer ours.
- The first report on the results of the new International Health Regulations (IHR) will be presented to the World Health Assembly after the first year but before the end of the fifth year following their entry into force.
- There is also an IHR Review Committee tasked with "encouraging" (i.e., exerting pressure for) their implementation and monitoring the alignment of other international regulations with these rules (essentially a legal-administrative laboratory for rectifying non-compliant legislation). Let us see the response of our elected representatives—who loudly proclaim their intent to introduce laws improving our standard of living and economy—when the time comes to vote on amendments and revisions to national legislation, international treaties, and even concessions that conflict with the IHR. Article 57 grants states the right to interpret all other international regulations and agreements as they see fit, provided they do not contradict the IHR (implying that the supreme law might not be the Constitution, nor national or international legislation, but rather the WHO rules). It is not merely a matter of enforcing laws, but of interpreting them; we may have excellent laws, but if they conflict with the IHR, they will be subject to mandatory interpretation. We have already seen how the Constitution and laws are interpreted when they conflict with EU regulations; therefore, when Members of Parliament swear to uphold them, we must interpret their oath in light of how such conflicts of norms are resolved.

Disputes between individual states regarding the new International Health Regulations are to be referred to the WHO Director-General or the Permanent Court of Arbitration, while disputes between the WHO and individual states are to be referred to the World Health Assembly.

VACCINATION CERTIFICATES

Article 36 gives the green light to holders of vaccination certificates, even if they show signs of the disease; however, it also grants the competent authority to whom the certificate is presented the right to refuse the traveler permission to proceed if that authority has access to verifiable indications and evidence that the vaccination was ineffective. If the WHO authority indicates—without necessarily proving—that the vaccination was ineffective, it may mandate vaccination measures.

The criterion of "effectiveness" is deliberately left undefined.

Through FULL CONTROL and MANAGEMENT of carrier certification, control is also established over trade and the entire economic process between states—determining who CAN trade, why, and who CANNOT.

Every carrier will be required to complete "health declarations" and sanitary status certificates for their vehicles, valid for six months.

According to Article 40, Paragraph 2, health-related fees may be imposed on travelers.

Any individual may undergo treatment or quarantine for a fee, or receive a vaccination free of charge. It allows for a specific individual to be placed under quarantine.

Under the pretext of a "false positive," a person—specifically, an "inconvenient" individual—can be forcibly quarantined.

AMENDMENTS TO INTERNATIONAL DOCUMENTS

- The new International Sanitary Regulations also amend certain existing international provisions:

- (a) International Sanitary Convention, signed in Paris on June 21, 1926;**
- (b) International Sanitary Convention for Aerial Navigation, signed in The Hague on April 12, 1933;**
- (c) International Agreement for the Abolition of Bills of Health, signed in Paris on December 22, 1934;**
- (d) International Agreement for the Abolition of Consular Visas on Bills of Health, signed in Paris on December 22, 1934;**

- (e) Convention modifying the International Sanitary Convention of June 21, 1926, signed in Paris on October 31, 1938;
- (f) International Sanitary Convention of 1944, modifying the International Sanitary Convention of June 21, 1926, opened for signature in Washington on December 15, 1944;
- (g) International Sanitary Convention for Aerial Navigation of 1944, amending the International Sanitary Convention of 12 April 1933, opened for signature in Washington on 15 December 1944;
- (h) Protocol of 23 April 1946 to prolong the International Sanitary Convention of 1944, signed in Washington;
- (i) Protocol of 23 April 1946 to prolong the International Sanitary Convention for Aerial Navigation of 1944, signed in Washington;
- (j) International Sanitary Regulations of 1951 and the Additional Regulations of 1955, 1956, 1960, 1963, and 1965; and
- (k) International Health Regulations of 1969 and the amendments thereto of 1973 and 1981.

ENTRY INTO FORCE, REJECTION, AND RESERVATIONS (Arts. 59 and 61)

- The amendments are scheduled to enter into force on 31 May 2024.

This is to take place at the World Health Assembly of the World Health Organization, held from 27 May 2024 to 1 June 2024.

Within an 18-month period following the entry into force of the International Health Regulations, States may reject the regulations or make reservations. After this deadline, nothing will be possible.

- If a state is unable to fully align its domestic legislative and administrative regulations with the IHR within 18 months, it must do so within an additional 12 months following the initial 18-month period, provided it has notified the Director-General of its request for an extension.

Thus, between May 27 and June 1, 2024, a report will be presented on the progress made regarding the amendments to the existing International Health Regulations (dating back to 2005).

Technically, the difference between these and the "pandemic instrument" is that they may not necessarily be legally binding; however, avoiding this outcome requires political will and representation within WHO structures that is genuinely committed to upholding our rights—representation capable of voicing opposition within the allotted timeframes.

Ideally, we should not participate in this UN specialized agency at all.

It not only hands us straitjackets but also leads us toward new debts and liabilities.

Health, National, Political, and Other Forms of Sovereignty

By seizing control of a given sovereignty, the "deep mafia" overthrows regimes—orchestrating "Yellow" or "Orange" revolutions and installing governments and presidents to serve the interests of the "deep state."

By seizing such sovereignty, the deep mafia imposes policies on nations that align with the deep state's economic interests and profit motives. This includes NATO-related policies aimed at threatening or waging war against third parties from the territories of other nations, and establishing a "New World Order" of global governance that facilitates easier control over states, nations, peoples, economies, production, finance, and capital. They create conditions and incite chaos through various schemes and pretexts—such as wars, refugee waves, and social, public, political, and state crises—all with the ultimate goal of economic and financial gain, personal profit, governance, control, manipulation, and the "zombification" of civil society (often via the funding of NGOs, such as those backed by Soros). They also impose military budget requirements on nations to drive arms sales for companies within their military-industrial complex, while maintaining control over criminal groups and syndicates. Control over commercial, military, and criminal groups within the defense industry, the financial sector, corporate media, and counter-terrorism; control and management of state funds and national budgets; imposition of globalization as an ideology; promotion of the LGBT agenda (lesbian, gay, bisexual, and transgender) as a leading state-level priority; and the use of compromising material to control individuals—such as politicians and other key figures—upon whom depend state decisions and actions affecting society as a whole. Total societal control—monitoring society via social media activity (Facebook, Twitter, etc.), driver's licenses, viewing or recording of films, blog activity, viewing or sending photos, police detentions, metro travel, credit and debit cards, financial information, facial recognition via surveillance cameras, emails sent and received, online searches, health records, education, travel tickets (train, bus, plane), installed and used mobile apps, traffic data, online transactions, text messages; terrorist acts perpetrated by the USA, NATO, and other military organizations; terrorist acts by private entities; ruin and collapse of the education system; destruction of national democratic achievements; dismantling of the social welfare system; societal polarization; destruction of national values and culture; erosion of rights and freedoms; destruction of the middle class; rising poverty and inequality; increased begging; indebtedness of states and governments to the IMF, World Bank, and ECB; media dependency (TV, radio, newspapers, magazines); control and management of the drug trade by the

"Black Nobility" since the 18th century; creation and management of societal inequalities; destruction of the middle class... The ultimate goal of enslaving society; creating conditions to control and manage the economies of entire nations for the sole purpose of personal profit; creating a university-bred elite—a global, mafia-like Masonic elite—to govern states and other institutions for the benefit of the Global Masonic elite; controlling and managing a nation's education system to induce intellectual decline, thereby exerting greater control over the masses and the younger generation through "zombification" and management at every level—emotional, educational, social, and otherwise; establishing a system of SOCIAL GENOCIDE; controlling and managing healthcare with the ultimate goal of reducing the global population; controlling and managing pharmaceutical development and creating population dependency on medication; controlling and managing patents and innovations, and eliminating scientists who create discoveries that could improve people's lives; controlling and eliminating scientists who develop medicines or new treatment methods that are inexpensive and threaten the elite's wealth; controlling and eliminating scientists who create zero-point energy generators and free-energy systems; controlling, managing, and producing narcotics and fostering population dependency for the sake of profit; controlling and creating GMO products and foods for profit and population reduction; controlling and managing the population through food, lethal medical practices, deadly vaccines, and psychiatric drugs... food, deadly grain, deadly sweeteners, GMOs, deadly water, air, control and management, **Control and management of the media, media capture, and propaganda serving solely their own goals, ideas, aspirations, and plans—all masked by the slogan that they care for humanity and the people within it; the creation of institutions—such as the UN, UNICEF, and others—through which nations and policies are governed; control over intelligence and secret services via Masonic operatives who serve the lodges and their personal interests rather than the laws of the respective state; propaganda and manipulation aimed at diminishing critical thinking**

- increased insularity, suppression, dependency, and a sense of servitude and reliance on the decisions and actions of those in power
- turning one's back on actual facts and evidence
- dependency on propaganda
- dependency on the fear and stress propagated
- rise in mental illnesses
- rise in drug abuse
- increase in the homeless population
- increase in unemployment
- increase in the number of undernourished people
- rise in incurable malignant diseases
- increase in thefts
- increase in crime
- increase in murders
- increase in business bankruptcies
- reduction in life expectancy

THEORY OF TYPES AND LEVELS OF STRESS – 2009, Prof. Momchil Dobrev and Prof. Mariola Garibova-Dobreva; control exercised by a global, Masonic, mafia-like entity ...the elite of any given state and its governance through the control and management of that state's special services and intelligence agencies; control by the global, mafia-like Masonic elite over all Masonic lodges and similar organizations worldwide; and the control and management—by "deep state" structures—of the selection, election, and appointment of presidents, prime ministers, and chancellors in various countries.

The global, mafia-like Masonic elite, along with the "deep state" it controls and its representatives, operates as a shadow government.

The global, mafia-like Masonic elite and the "deep state" it controls disregard the rights, freedoms, and constitutions of individual states, as well as treaties establishing unions such as the European Union.

11. Conclusion: The goal of the New World Order is the creation and imposition of a "DIGITAL MAFIA-FASCISM"—featuring elements of a new Holocaust, genocide, and dictatorship—orchestrated by the "deep state" mafia and the global Masonic elite.
